TO WHOM IT MAY CONCERN

Cotlands is a national non-profit organisation offering integrated early childhood development programmes that provide care, support and development opportunities to vulnerable young children and their families.

We are very fortunate to have had the support of Mr Israel Noko in his capacity as director of NPI Consulting over the past two years. Israel has assisted Cotlands with the following:

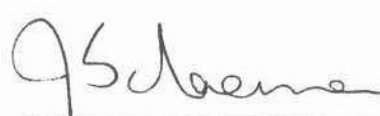

1. He has conducted pro bono workshops for Cotlands supporters
2. He has conducted pro bono workshops for Cotlands staff and Board Members
3. He has been available to Cotlands should we have any questions or concerns
4. He has referred donors to Cotlands, increasing our funding stream
5. He has advised Cotlands in terms of the BEE codes and how they affect our cause

With Israel's assistance, we have been able to expand our funding sources as well as provide our donors with a real benefit in return for their donation.

Mr Noko can be described as a true supporter of Cotlands and we are truly grateful for his support and assistance.

We look forward to many more years of working with Israel as together we can improve the lives of children and their caregivers in South Africa.

Yours sincerely

Jackie Schoeman
Chief executive officer
