Dear Sir / Madam

Re: Business Reference - NPI Governance Consulting

I have had business contact with Israel Noko and NPI Governance Consulting (NPI) since March 2012 when I joined Oberthur Technologies South Africa in my capacity as Country Director. The relationship between Oberthur and NPI has however been founded before this time; NPI was recommended to me by my predecessor.

NPI has consulted to us on various aspects relating to Broad Based Black Economic Empowerment, including preparation and planning for audits, new developments, and strategy.

I can personally recommend Israel and his team at NPI without reservation within this consulting space.

You are welcome to contact me should you need any more information.

Sincerely,

Hennie du Plessis
